PERSONAL STATEMENT

My name is Mehamed Ali and I have completed Bachelor of Science and technology degree in Electrical and Computer Engineering specialized in computer stream from Mizan Tepi University.

➢ My Interest is to be a programmer to solve many problems.
➢ I live in Addis Ababa

My interested in web development because of

➢ It may have more freedom
➢ May web developers can work from home or set there schedule. For example they may take on freelance work so that they can work the hours that make the most sense for them. This benefit may be significance for people while building a career.
➢ The job outlook is stronger
➢ The pay is high
➢ Web development is a creative skill for that reason My Interest is very high
➢ One of the most significant advantages of learning to code is that it is a challenging and constantly evolving trade. As you continue to code, you'll realize that there is always something more to learn.
➢ This scholarship will help me achieve my educational and career goals
➢ The learning process never stops, which is one of the most exciting aspects of coding.
➢ My parents are currently employed; they are supporting my brother and other siblings that are in school. They are currently pay check to pay check, and cannot fund for this course.
➢ I hope i am the best candidate to get this free scholarship for this course because:-

1. My family are a poor that means not the ability to pay for this course and also my income is not enough for this payment.
2. Please please My interest is very high to learn full stack but I am not having many to pay for this course my salary is 3934 this is very smallest many to live in addis ababa please look how to pay for this course. Even I can't pay for Ethiopian boot camp because this salay is not enouph to pay and learn this type of course.

Strongest qualities that distinguish me from everyone.

➢ I am a hard-working and driven individual who isn't afraid to face a challenge.
➢ I'm passionate about my work and I know how to get the job done.
➢ I would describe myself as an open and honest person who doesn't believe in misleading other people and tries to be fair in everything I do.

My plan to see myself in 10 years:

In the next 10 years, I see myself the owner of big software company including artificial intelejence. If you support me well otherwise I will try many times to success my goal. My success is with out your supporting I will call back to tell my success.

➢ In the next 10 years, I see myself learning more, developing my skills, and gaining experience.
➢ I wish to advance with the company and support others in achieving their professional goals.
➢ I come from a family of eight, including my parents and younger sister. My parents are both hard working and dedicated to their family. My father is a Teacher, and my mother is a farmer. They have always instilled in me the importance of education, hard work, and perseverance.

Plan to allocate a minimum of 4 hours a day for this course

➢ I am working in IT Officer in the Government so I will give above 4 hours in a day after completing my work. I will give more than 5 hours to study this course.
